What's the vision as we progress into Year 3?

Event (2)
on Saturday
Starts @ 5pm

Do you have a story to tell about your interaction with the Department of Children's Family Services (DCFS)?

The Issue:

Black children and families are disproportionately impacted by current mandated reporting practices. A 2021 study found that more than half of all Black children in the state of California will undergo a child welfare investigation before their 18th birthday. The vast majority of these investigations are spurred by mandated reporting. We're looking to change this.

This is your chance to tell your side of the story!

Be heard, and get it documented.

You will be provided with a **FREE** dinner, and a **\$50 Visa gift card** upon completion of our survey this Saturday. Please make sure to RSVP for this event or your place may be lost!
