**MEETING ID: 896 1005 8775**

**Passcode: 101833**

<https://zoom.us/join>

Join the Meeting

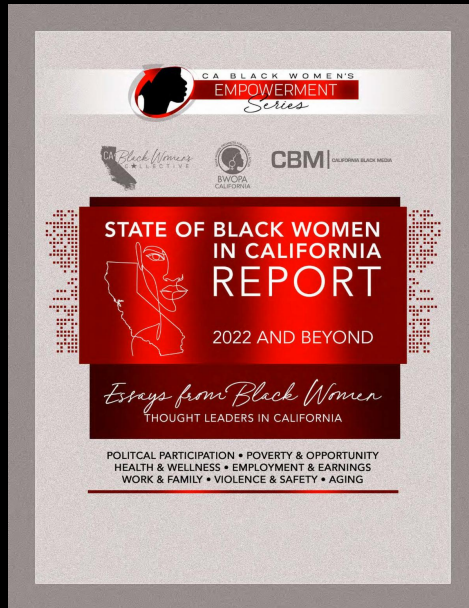

Two of our favorite math specialists Dr. Kyndall Brown and Dr. Pamela Seda who have been on the Speaker circuit for the last year, will be presenting at our strategic team meeting this Saturday.

We first discovered Dr Brown's brilliant presentation at The California Math Council conference in Palm Springs and he gave us a copy of his and Pam's book "Choosing to See". It took one weekend to read it!! Our team could not put it down, that's how brilliant it is. We invited Dr. Brown to be the Keynote Speaker for our 1st Math Conference FACTS BET ON ME - Family and Community Teaching Summit: Black Educators Transforming our Notions of Math Excellence.

We believe that in NAAAPY, we want our members to get access to the Math Equity Framework, as we are sick and tired of the math failure of Black children in LAUSD and across the state of California. Please join us for the very informative webinar as we begin to address strategies where our Black students can get the type of math education to make a difference in their academic outcomes.

See you this Saturday at 3 pm.

-Yo, NAAAPY Board President
